

RAT SWARMS

When the skaven go to war, their clawpacks often advance amidst a teeming tide of vermin. Immense swarms of rats seethe across the field of battle, engulfing those who fall and devouring any unfortunate enough to stand in their path.

DESCRIPTION

A unit of Rat Swarms has any number of models, each armed with Gnawing Teeth.

ABILITIES

Endless Tide of Rats: *There are always more rats, and more, and more, and even more.*

In your hero phase you can return 1 slain model to this unit. Set up the returning model within 1" of this unit. The returning model can only be set up within 3" of an enemy unit if this unit is already within 3" of that enemy unit.
