

# UMBRAL SPELLPORTAL

Comprising a pair of shadowy mirrors, the Umbral Spellportal links two points on the battlefield, allowing wizards to cast their destructive magics and enchanting boons at incredible distances.

## DESCRIPTION

An Umbral Spellportal is a single endless spell that consists of 2 models (if it is dispelled, remove both models).

**Summon Umbral Spellportal:** *Eldritch sigils can be inscribed into the mist to summon a pair of arcane mirrors, the surfaces of which undulate with shadowy aetheric energy.*

Summon Umbral Spellportal has a casting value of 5. If successfully cast, set up the first Umbral Spellportal model wholly within 12" of the caster, and then set up the second Umbral Spellportal model wholly within 18" of the first.

## ABILITIES

**Arcane Passage:** *When looking upon an Umbral Spellportal, those versed in magic see a shadowy reflection of what lies on the other side of its twinned construct; while physical matter cannot travel through the portal, aetheric energy knows no such restriction.*

If a **WIZARD** successfully casts a spell while they are within 1" of an Umbral Spellportal model, the range and visibility of the spell can be measured from the other Umbral Spellportal model from this endless spell.

If a predatory endless spell finishes a move within 6" of an Umbral Spellportal model, remove it from the battlefield and set it up again anywhere within 6" of the other Umbral Spellportal model from this endless spell.

**Empowered by Ulgu:** *In the deceptive realm of Ulgu, Umbral Spellportals appear to be everywhere and nowhere all at once.*

If your battle is taking place in the Realm of Shadow, the second Umbral Spellportal model can be set up anywhere on the battlefield, instead of within 18" of the first.
